About the website

We use cookies to facilitate navigation and to improve your visit with us.

Our website is responsive, which means that it is adapted to work on computer monitors as well as tablets and smartphones.

Customise the size of the text
Most modern web browsers have a menu function for changing the size of the text on the webpage. The easiest way to customise the size of the text is to press the CTRL key and then scroll the mouse wheel. If you do not have a mouse wheel, click the minus or the plus key. If you are using an Mac computer, press the Command key instead of the CTRL key.

Technical requirements

Use of Javascript
Everyone can access the information on the website without JavaScript being enabled. However, some functions will not work as intended if JavaScript is disabled.
