Claims registration

The company uses an industry-wide register of insurance claims, the "GSR". This GSR contains certain information regarding losses and the party who requested compensation. Accordingly, the company can see if you previously claimed a loss with another insurance company, an occupational pension company, or a governmental agency which handles similar claims for compensation. The purpose of the GSR is to provide insurance companies, occupational pension companies, and governmental agencies that deal with similar compensation claims a basis for identifying questionable insured losses and compensation claims. In this way, companies and governmental agencies may avoid making payments based on incorrect or false information or multiple payments under several insurance policies for the same loss. The information can also be used in de-identified or pseudonymised form for statistical purposes and analyses on an aggregate level.

The personal data controller for the GSR is Skadeanmälningsregister (GSR) AB, Box 24171, 104 51 Stockholm. Go to www.gsr.se. for further information regarding the processing of data which appears in the register.
